

Remarks:

The above preliminary amendments are requested to correct minor errors in the specification as filed, which inadvertently used numeral 112 in the drawings to refer to both netlist 112 and adapter/connector 112. Formal drawings are being prepared and will be filed in due course correcting FIGS. 2 and 4 to use numeral 105 in connection with the adapter, leaving numeral 112 to identify the netlist file. No new matter has been added.

Date: February 17, 2004
